CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Institute conducts staff meetings on regular basis. In such meetings subjects

to teaching faculty are allocated. In such meeting when individual teaching staff is allocated subjects for ensuing semester, he or she is asked to prepare teaching plan and elaborate on tools and techniques to deliver the respective subjects. Every teaching faculty maintains academic file in a predefined format. The students have adopted self learning method. Various methods adopted by teaching staff include - case study, anecdotes, chalk-talk method, scenario building, webinars, industrial visits, academic interventions, employability skills enhancement, importance of time management etc. Students belong to rural and semi-urban background. They seldom have phobia for interpersonal skills and communication. Faculty members familiarize them with current industry expectations. We groom them to be able to match such expectations. Every student gets personalized attention and individual mentoring. The university has provided syllabus which ensures sound theoretical framework. Teaching faculties share their industrial/ business world experience. They share latest events and news with students. It is also imperative that student get these updates. LCD TV is made available to view latest business news on regular basis. Students see movies through movie club activity. They prepare write-up of the films viewed along with their learning.

2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

Institute has an informal mentoring mechanism which includes both teaching and non-teaching staff members. This mechanism primarily focuses on students staying in hostels of the campus. Even other students are also counselled by these persons. Such counselling helps students overcome problems such as home sickness, stress and other related issues. Institute assigns summer internship project guides for providing active support to students to complete their individual projects. These guides also act as mentors cum counsellors to their respective SIP students. This arrangement facilitates the students with consultation, advice and constructive feedback to modify and or improve their respective academic activities as well as their personal, emotional as well as ethical issues. Mentoring is such an activity which can happen irrespective of age, caste, gender or social/economic background. Therefore even within the framework of institutional setup, mentoring naturally happens and strengthens ethical and academic values. A continuous review and follow up is the key element of any mentoring system. Institute ensures close follow up and review which results into overall improvement in academic and administrative performance of the staff as well as the students. While forming teams for mentorship for the students, not only the full time teachers, the faculties sharing knowledge and experience who are drawn from industry and business (02) were also made to contribute to the mentorship program. As such those experts were also part of the mentorship program of the institute. In view of above even the passed out students (03) also play important role since they share their live experiences which contribute immensely for the growth of the students.

7.3 – Institutional Distinctiveness

7.3.1 – Provide the details of the performance of the institution in one area distinctive to its vision, priority and thrust in not more than 500 words

The Institute is committed to overall development of Rural Youth. The admission intake primarily is drawn from varied social, cultural, economic background and

geographic locations which are rural or semi-urban. The youth comes from small towns such as Akluj, Bhigwan, Indapur, Phaltan, Satara, Karad etc. Hence it is inevitable to concentrate on their communication basics and conceptual understanding. Therefore it becomes all the more necessary that teaching faculty needs to equip themselves with unique skills to make students understand the complexities of challenging demands of business world. As such, Institute engages students rigorously to hone the skills through various teaching andragogies. The tools used are carefully selected. Teaching faculties make students go through the business processes through real life situations simulated in the class room, case studies, scrap book, mock online tests, scenario building etc.

8.Future Plans of Actions for Next Academic Year

COVID 19 challenges - The pandemic situation had prompted teachers to change the delivery system of their respective courses. In this academic year sessions to the extent of 70 were conducted online using platforms such as Google meet, Zoom etc. Students were also encouraged to interact with the teachers through these platforms. Owing to the above situation prevailing all over the world, the teaching now will transform itself to online mode to the greater proportion. Tools such as video sessions for virtual industry tours, experts sessions conducted through online platforms such as Google meet, Zoom are going to be permanent feature. Although it can not substitute the physical classroom teaching which facilitates the students to understand and digest, complex concepts. It is also desired to cultivate certain skill sets for students through certifications offered by media like course era, udemy, Microsoft virtual classes etc. Even the training programs for programming languages such as python, AI are also encouraged to acquire job related skills. Psychological conditioning: As the pandemic situation has grown wild the psychological conditioning of the students and their parents is obvious. Institute wishes to conduct psychological conditioning sessions for the students, parents as well as general public. This effort has been carried out through Vasundhara 90.8 FM, a VIIT initiative. Shuffling priorities: There are situational requirements for any individual to survive on slot of pandemic as well as natural disasters (cyclones, landslides, extraordinary rains etc.) In view of these situations institute plans to provide expert's training to construct necessary willpower and skill to be able to prioritize. An individual needs to appropriately handle the dilemma and overcome it through great sense of shuffling between different priorities. Online teaching nuances: Teaching profession is a noble profession. Every teacher always insists to be in the classroom among the students. This has become rare possibility now. Proportions of online sessions have increased alarmingly. Teachers need to upgrade himself/ herself to be in tune with latest technology to share his/ her knowledge through technological gadgets. This has prompted the institute to conduct in-house training programs to provide support and orientation for the teaching fraternity.
